The \$25.00 Upright Citizens Brigade Comedy Improvisation Guide is a comprehensive guide to UCB style long form of comedy improvisation. Written by UCB founding members Matt Besser, Ian Roberts, and Matt Walsh, the guide covers everything from the basics of a two-man work scene (with a great emphasis on finding a game scene), to the complexity of working in an ensemble to perform long form structures such as Harold and Cinema. Practical as a book, the guide provides exercises throughout to help the reader master every new concept and technique presented. While the guide is written to be understood by newcomers without the previous impact of improvisational comedy, experienced improvisers will find it an excellent resource for honing their skills, refining concepts and generally bringing their work to a higher level. I would have to say, however, that I found this to be a pleasant, clear and comprehensive text on how to make long-format improvisation. I've heard that UCB style focus on finding games in scenes, especially in theater, and that there are alternative approaches, but I found the mechanics of UCB style to be an extremely digestible and useful way of frame improvisation. I think that if I took this on my first week of improvisation I would probably be a little more skeptical of it and overwhelmed by the information, but as I have read the text over the past few weeks I have found little I disagree with, a lot I nodded my head vigorously, and more than a few gems of new techniques, exercises, or approaches that I want to take in my team improvise. There are probably other texts out there that do a good job of doing this, too, but I could certainly see the design series of improv courses based on this guide and highly recommend it for those trying to become a better improviser. ...
